AUTHOR Bennett, Fay, Ed.; And Others
TITLE The Brevard County Reading Laboratory Manual.
INSTITUTION Brevard County Board of Public Instruction,
Titusville, Fla.
PUB DATE 30 Jun 70
NOTE 271p.
EDRS PRICE MF-\$0.65 HC-\$9.87
DESCRIPTORS *Curriculum Guides, *Individualized Reading,
*Reading Clinics, *Reading Games, *Reading Programs

ABSTRACT

GRADES OR AGES: K-12. SUBJECT MATTER: Reading laboratories. ORGANIZATION AND PHYSICAL APPEARANCE: The six chapters of the guide deal with (1) the roles and relationships of the reading laboratory teacher, principal, curriculum coordinator, reading clinician, classroom teacher, and pupil; (2) utilization of reading laboratory facilities, including design, equipment, and storage facilities; (3) pupil placement and scheduling; (4) individualized approach, with descriptions of recommended diagnostic instruments and the design of programs for individual pupils; (5) materials and equipment; and (6) a selected bibliography. The guide is xeroxed and spiral-bound in a plastic binder. OBJECTIVES AND ACTIVITIES: The guide is intended to offer solutions to the problems facing the reading laboratory teacher, and to facilitate the effective use of the laboratory. Chapters 4 and 5 contain information on activities and diagnostic tests. INSTRUCTIONAL MATERIALS: Chapter 5 gives a detailed listing of materials, equipment, and reading games, by skills and instruction and interest level, together with publishers and other sources. STUDENT ASSESSMENT: Chapter 4 details procedures for evaluating student progress and reporting to the pupil, parents, and principal and instructional staff. (MBM)

FOREWORD

In the school year 1968-69 the Brevard County school system adopted the concept of placing a reading teacher in each school. During that school year the concept was expanded to create a reading laboratory in each school.

The in-service workshops held prior to the opening of the 1969-1970 school year were not sufficient to instruct the reading laboratory teachers in the procedures necessary to utilize both the facilities and the approach that the reading laboratory offered to the pupil deficient in the area of reading skills.

The guidelines created for the purpose of "giving direction" to the reading laboratory teacher were found to be an excellent starting point, but limited in the areas in which teachers of reading were most inadequate.

This "Teacher Manual" for the Reading Laboratory was begun in an effort to offer some possible solutions to the problems that faced the reading laboratory teacher at both the elementary and secondary school levels.

The Teacher Manual consists of six chapters which contain information relative to the reading laboratory approach. Included are topics which range from the roles of the school personnel who contribute to the reading laboratory operation to the utilization of the materials, equipment, and space of the physical plant designated as the reading laboratory.

The Reading Laboratory Teacher Manual offers the possibility for the information contained to be employed by the teacher individually, or in in-service groups.

TABLE OF CONTENTS

CHAPTER I - The Reading Laboratory - Roles and Relationships

The Role of the Reading Laboratory Teacher	1
The Role of the Reading Laboratory Teacher and the Principal	1
The Role of the Reading Laboratory Teacher and the Curriculum Coordinator	1
The Role of the Reading Laboratory Teacher and the Reading Clinician	1
The Role of the Reading Laboratory Teacher and the Classroom Teacher	2
The Role of the Reading Laboratory Teacher and the Pupil	3

CHAPTER I

THE ROLE OF THE READING LABORATORY TEACHER

The Reading Teacher and Reading Laboratory of a given school are classified by the school board and State Department as a special unit. Therefore, the utilization of this unit is unique to regular teacher assignment.

THE READING LABORATORY TEACHER AND THE PRINCIPAL

The principal will be most influential in the development of the Reading Laboratory. Specific responsibilities will include: selection of a highly trained and qualified teacher to conduct the program; coordination of the various professional personnel involved in the selection of pupils and the operation of the laboratory; and guidance in budgeting, planning, and implementing the program.

In essence, the principal will establish the atmosphere in which the reading laboratory will operate. The quality of this atmosphere will determine the success of the program.

THE READING LABORATORY TEACHER AND THE CURRICULUM COORDINATOR

The curriculum coordinator is primarily responsible for the total developmental reading program within the school. The reading laboratory teacher may serve to give assistance in this area, but due to the demands of the reading laboratory organization and maintenance, this role for the reading laboratory teacher will be minor.

The curriculum coordinator may assist the reading laboratory teacher in the evaluation of pupil test data and the scheduling of pupils from throughout the school.

THE READING LABORATORY TEACHER AND THE READING CLINICIAN

The Area Superintendent's staff includes the area reading clinician who works directly with the principals, coordinators, and teachers within the area schools. This staff member is also available to provide inservice leadership for reading laboratory teachers and to aid in planning and implementing inservice programs in corrective and developmental reading.

The area reading clinician is available as a consultant to principals in establishing a reading laboratory in the school and/or assisting in the continued development of the reading program.

The clinician is also available to principals to interview candidates for reading laboratory positions in terms of forming judgments relative to technical knowledge relating to reading. The principal is responsible for general professional judgments and actual employment, with approval of the Area Superintendent.

The clinician may assist the reading teacher in the physical organization of the reading laboratory and the proper utilization of the materials and equipment. The clinician is available to aid in evaluating the overall appropriateness and adequacy of the materials in a given reading laboratory.

The area reading clinician is available to the reading laboratory teacher for technical assistance in diagnosing individual reading problems and formulating reading laboratory programs and may assist in the selection of diagnostic tests to determine the reading deficiencies involved.

The area reading clinician is available to the reading laboratory teacher as a technical resource person to plan and to implement programs for individuals working in the school reading laboratory and to help the reading laboratory teacher to re-evaluate these programs during the school year.

THE READING LABORATORY TEACHER AND THE CLASSROOM TEACHER

The reading laboratory teacher may serve as a consultant to classroom teachers in identifying materials and needs of particular pupils. This function is generally applicable as a child leaves the laboratory program and is making his adjustment to the regular developmental program. Due to the number of pupils needing the reading teacher's assistance in the laboratory, this secondary role must remain very limited.

The findings of the reading laboratory teacher in regard to pupils referred to the reading laboratory, whether accepted or not accepted into the reading program, should be shared during conferences with the teacher or teacher-team from which the pupil was referred. Conferences with classroom teachers and/or teacher-teams should be scheduled during the year on a regular basis.

Discussions of a child's reading problems should be limited to those persons that are involved in contributing to a solution.

Conferences with parents of pupils within the reading laboratory program, whether concerning the reading laboratory directly or indirectly, should include the reading laboratory teacher, who is a part of that pupil's teaching team.

The primary task of the reading laboratory teacher is to work with the severely disabled reader, using corrective methods and techniques for the purpose of correcting reading deficiencies to the degree that a pupil can re-enter the developmental reading program in the regular classroom setting and

continue progress in reading at a reasonably successful rate and an acceptable degree of proficiency.

All duties of the reading teacher, other than working directly with low achieving pupils in very small groups, will not exceed 20% of the working day.

The organization and planning of the reading laboratory program is the responsibility of the reading laboratory teacher.

THE READING LABORATORY TEACHER AND THE PUPIL

The reading laboratory teacher, being aware of the characteristics of the disabled reader, will avoid thrusting the pupil into situations and experiences that will defeat the purpose of the reading laboratory approach.

The pupil's initial reaction to the reading laboratory may determine the value that he may receive from the reading laboratory program. Therefore, this experience should be planned carefully so that the first experience within the reading laboratory will be successful and rewarding.

The initial testing or evaluation in the reading laboratory program should be kept to a minimum.

The individual program-for-learning should provide goals in order that the student may note his progress and formulate new goals.

continue progress in reading at a reasonably successful rate and an acceptable degree of proficiency.

All duties of the reading teacher, other than working directly with low achieving pupils in very small groups, will not exceed 20% of the working day.

The organization and planning of the reading laboratory program is the responsibility of the reading laboratory teacher.

THE READING LABORATORY TEACHER AND THE PUPIL

The reading laboratory teacher, being aware of the characteristics of the disabled reader, will avoid thrusting the pupil into situations and experiences that will defeat the purpose of the reading laboratory approach.

The pupil's initial reaction to the reading laboratory may determine the value that he may receive from the reading laboratory program. Therefore, this experience should be planned carefully so that the first experience within the reading laboratory will be successful and rewarding.

The initial testing or evaluation in the reading laboratory program should be kept to a minimum.

The individual program-for-learning should provide goals in order that the student may note his progress and formulate new goals.

ORGANIZATION OF THE READING LABORATORY

DESIGNING THE READING LABORATORY

The reading laboratory teacher should design the reading laboratory to accommodate the location of the reading laboratory within the school. The design should include the equipment and the materials that are presently available to equip the reading laboratory.

The design should also include such working areas as are appropriate to the reading laboratory approach. Some variation of design is possible to reflect the approach utilized by the individual reading laboratory teacher.

The designs for five reading laboratories are included in this chapter. Two are rectangular shaped classrooms converted to reading laboratories, one is a conference room in an open space school, one a former learning laboratory, and finally a portable classroom used as a reading laboratory.

PLACEMENT OF EQUIPMENT

The placement of equipment is a major factor in the reading laboratory due to (1) consideration which must be made regarding its use, and (2) the quantity of equipment available.

The reading laboratory teacher should take into consideration the following points in creating the design for the laboratory:

1. Listening Centers

Aud-X. The Aud-X equipment requires an electrical outlet. Working and seating space will be required for 5-6 pupils. A screen for projection is required. The use of this machine is limited due to the levels of accompanying materials available.

Language Master. The Language Master is best used by one or two pupils working at one time. An electrical outlet is required. Placement should be in an area where distraction is at a minimum. Accompanying materials should be adjacent to the machine. Instruction as to the proper operation of the machine should be given to the reading pupil and/or group at the beginning of the school year. The teacher should acquaint herself with the instructor control of the machine for recording and erasure of the blank cards. The ear piece of the headsets used with the Language Master should be of soft type.

Record Player. Electrical outlets are required. The headset equipment should be utilized so that the listening area will not distract other work or instruction being done in the reading laboratory. A seating area with a working-writing surface should be provided for 2-6 pupils. The area is best located in a section of the reading laboratory that is isolated from the other areas.

Tape Recorder. Electrical outlets are required. The headset equipment should be utilized so that the listening area will not distract other work or instruction being done in the reading laboratory. A seating area with a working-writing surface should be provided for 2-6 pupils. The area is best located in a section of the reading laboratory that is isolated from the other areas. Individual tape recorder with earplug may be used at independent study areas.

2. Reading Centers

Controlled Reader, Jr. A 3-prong electrical outlet is required. The Junior Readers are designed to be used by the individual pupil and projected on a surface about 24 inches from the machine. Film-

strips and workbooks to be used by the pupils should be placed adjacent to the area. The juniors are best placed where their use will not distract other work or instruction being done in the reading laboratory. The reading laboratory teacher should study the manual before using and mark those sections to which she will need to refer in making out individual programs. Instruction in the use of the machine should be given to the pupils before they begin their independent work.

Controlled Reader (Large). A 3-prong electrical outlet is required. The large controlled reader is best used with a small group of pupils. The filmstrips used with the large controlled reader should be carefully selected by the reading laboratory teacher. Those most appropriate for reading laboratory use with the machine are the MT, AD, and Comprehension Power series. A screen will be needed and working-seating space should be provided. This machine is used for teacher-directed activities. The accompanying manual should be studied for proper operating procedures.

Craig Reader. An electrical outlet is required. The machine may be utilized by one pupil at a time. Placement should be made in an isolated location with working-writing space provided. Materials accompanying the readers should be adjacent to the area.

Hoffman Reader. An electrical outlet is required. The machine is best used by one or two pupils at one time. Placement should be made in an isolated location with working-writing space provided. Materials accompanying the reader should be adjacent to the work area.

3. Viewing Centers

Filmstrip Projector. A working area for 3 to 10 pupils should be provided. The best situation is to locate the filmstrip projector on a portable stand. An electrical outlet is required. Individual viewers, if used, should be used at a set carrel or a desk with an electrical outlet nearby.

Tachistoscope. An electrical outlet is required. Placement should include a seating area for a small group of pupils with a working-writing surface. A projection screen may be utilized. The accompanying manual should be studied by the reading laboratory teacher to learn the operating procedures for this machine, as well as the instructions concerning the correct selection of materials for pupils.

T-Matic. An electrical outlet is required. Placement should be made in an isolated area so that working with the machine will not disturb other work in the reading laboratory. The machine is best used by a small group of pupils, teacher-directed, and for only a brief time each period. The reading laboratory teacher should acquaint herself with the materials available for use with the machine as well as the operating procedures.

4. Instructional Centers

Small Group Areas. Small group areas should be provided for in the design of the reading laboratory. This area would include seating-working-writing space for the class group for teacher-directed instruction.

Independent Study Area. Independent study areas should be provided in the reading laboratory for the pupil working independently. The area should provide comfortable seating-writing-working space, proper lighting, and be adjacent to the materials that the pupil will need.

Visual displays to accent and identify each of the areas within the reading laboratory lend motivation to the reading laboratory program and the learning environment.

STORAGE OF EQUIPMENT

The storage of equipment may be necessary due to the physical location of the reading laboratory. Those reading laboratories that are located in portable classrooms should consider the addition of a storage cabinet for equipment. A drawing of a cabinet designed for this purpose is included in this chapter.

PLACEMENT OF MATERIALS

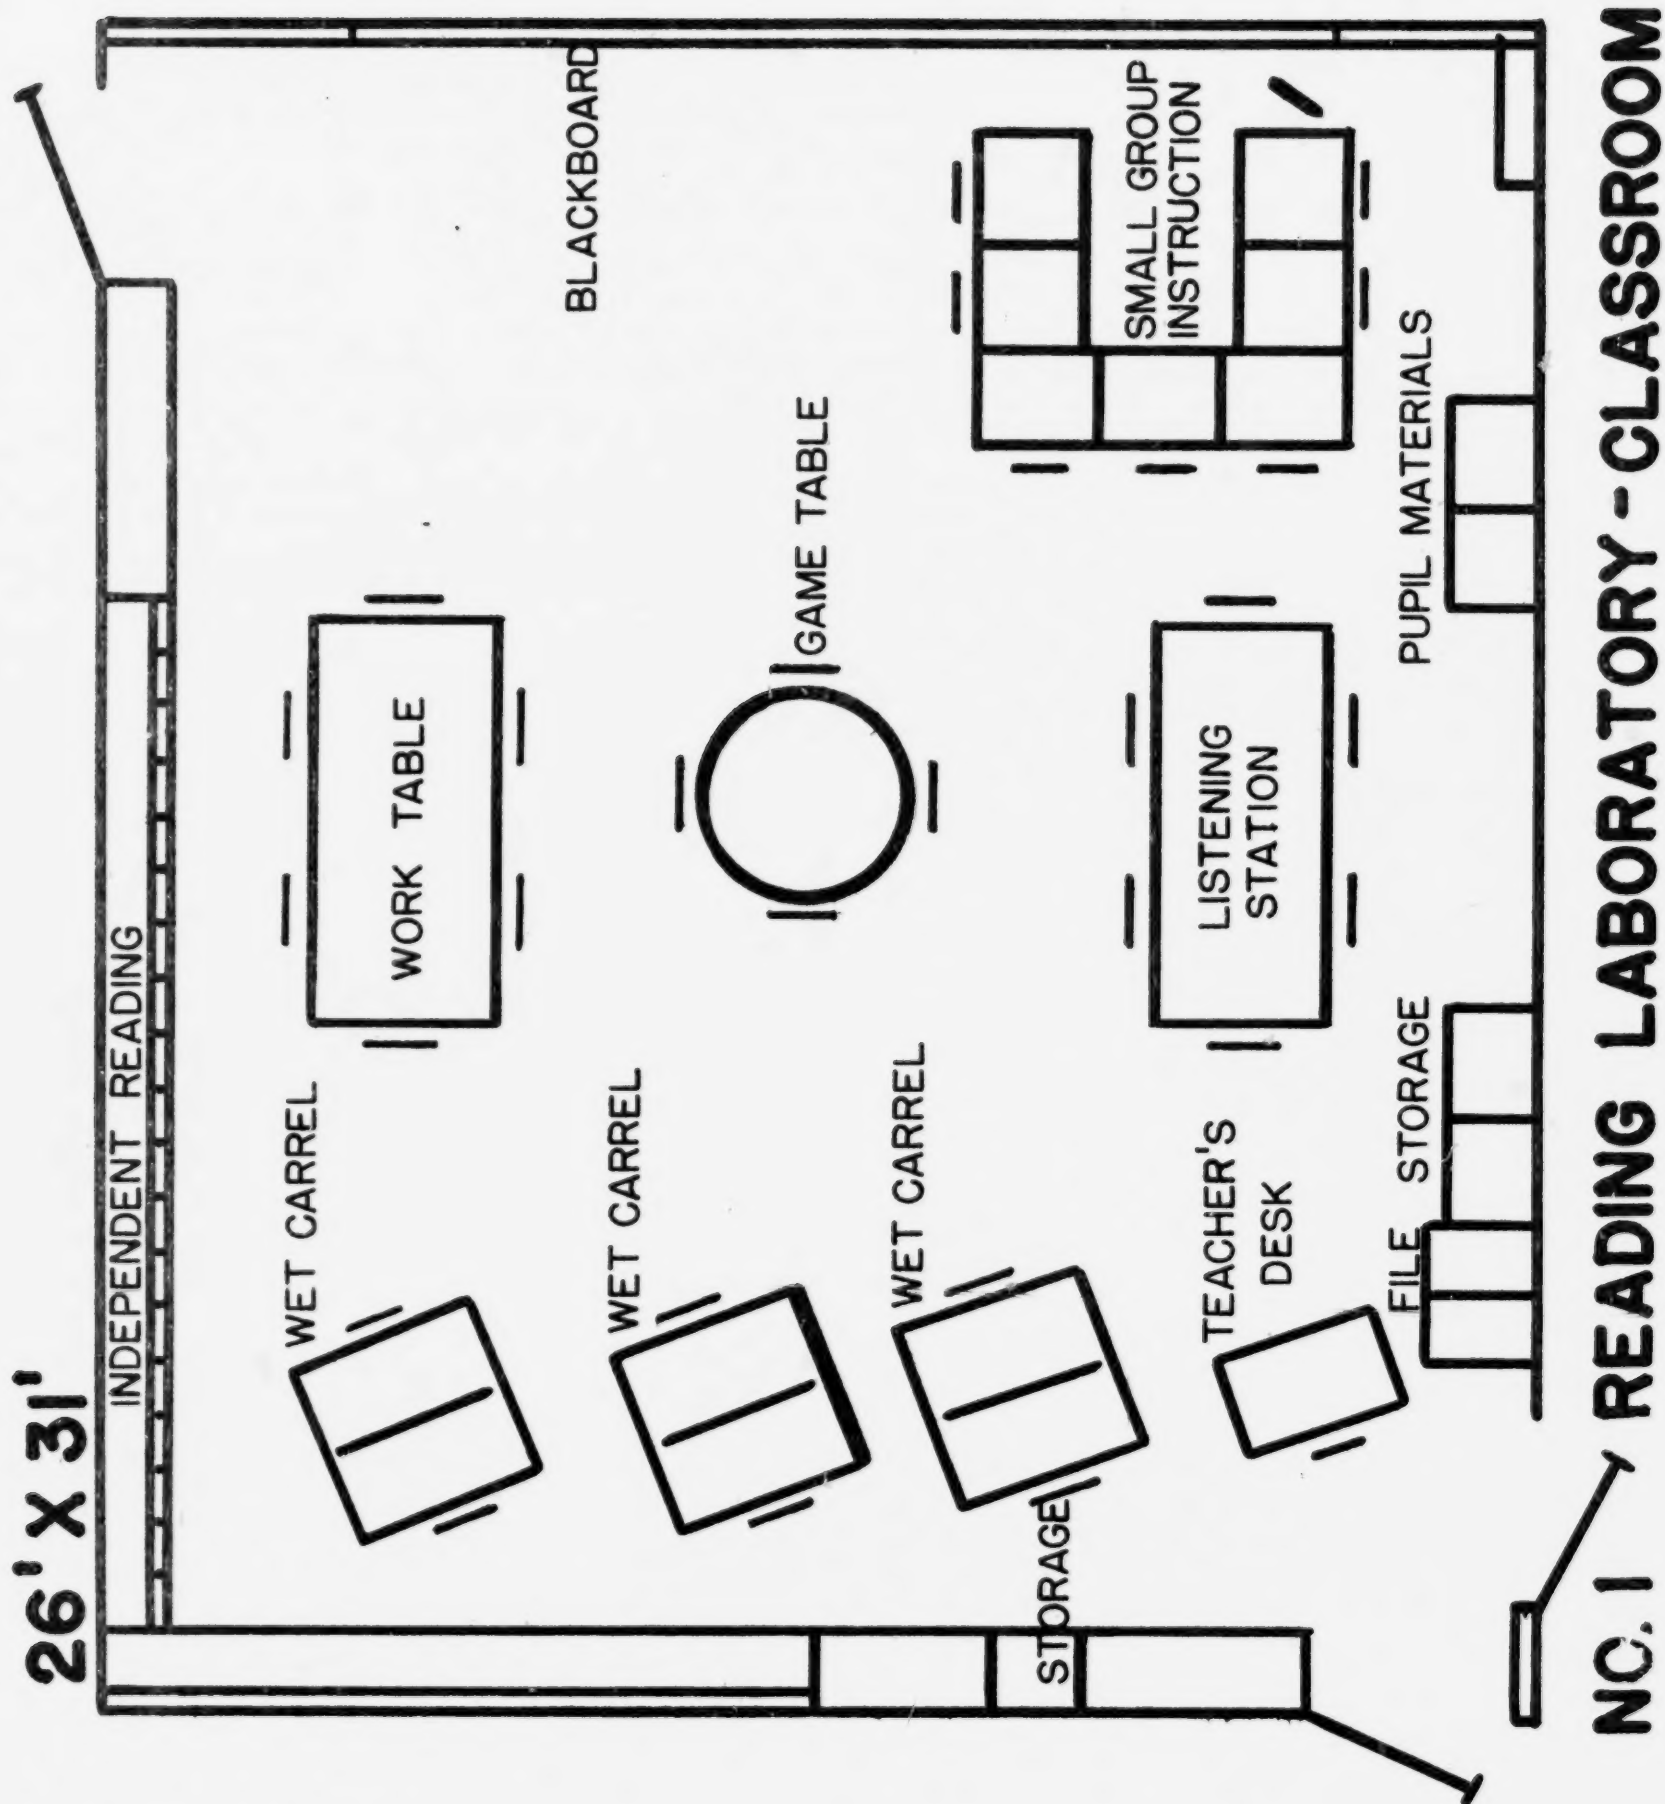

The placement of materials should be made after consideration of its function in the reading laboratory approach. Materials to be used by the

pupil as a part of the individual pupil programming should be placed adjacent to the area in which the work is to be done. The materials should be properly labeled by: (1) series name, and (2) level for the convenience of the pupil and the teacher.

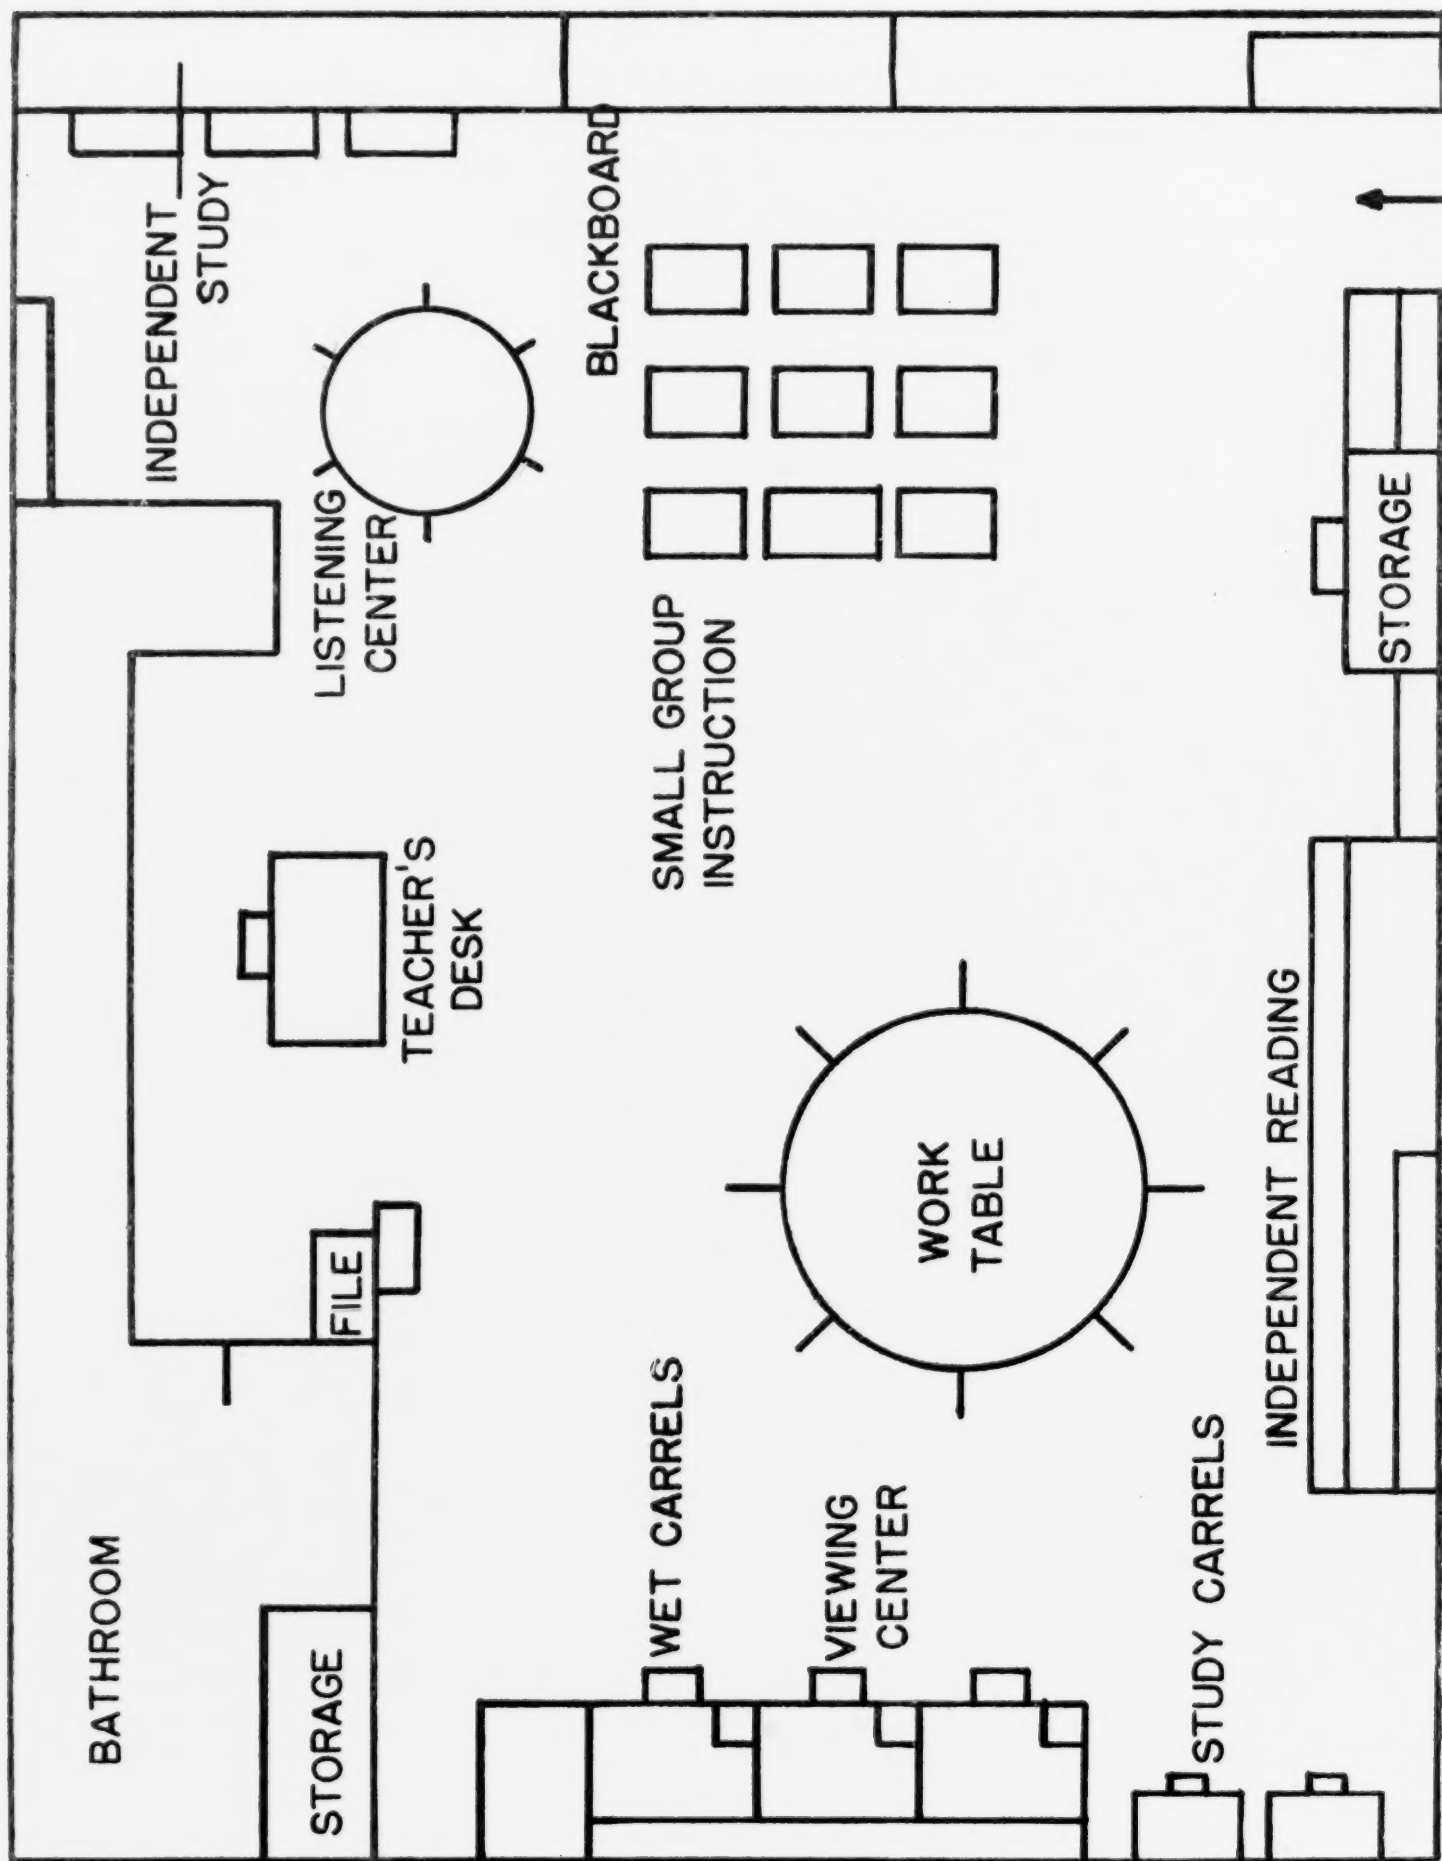

Materials not used frequently should be stored and filed.

Materials and/or folders for group use should be placed where the teacher may direct the pupils to distribute them readily.

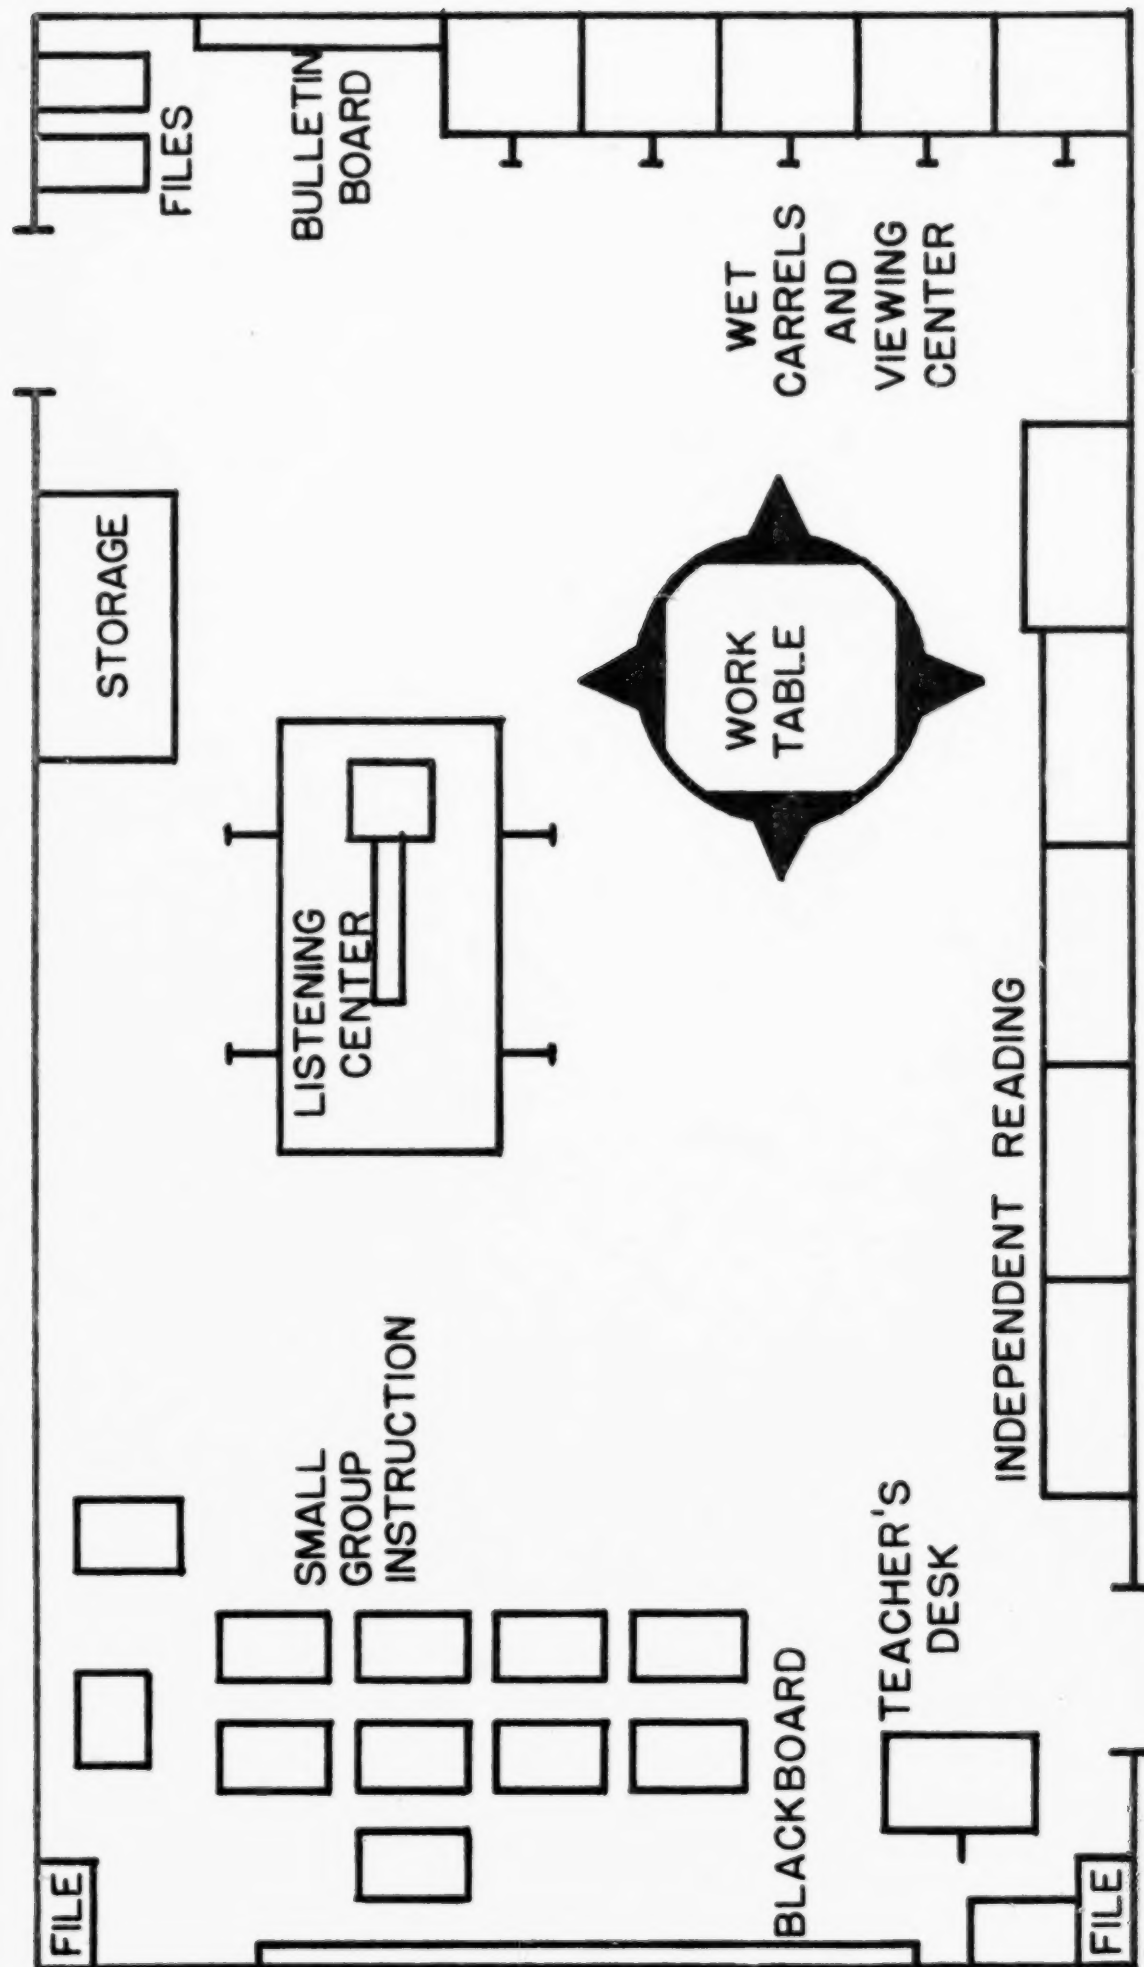

Materials, manuals, and similar items should be placed adjacent to the area where the reading laboratory teacher will conduct pupil conferences and plan individual programs.

CHAPTER III

THE READING LABORATORY

Pupil Placement and Scheduling

One of the major considerations in the organizational process of a program is the determination of those who will participate. This chapter outlines basic procedures for pupil selection, placement, and scheduling to more successfully implement the reading laboratory program at each school level.

Pupil Placement and Scheduling (Elementary)

Eligibility of pupils for the Reading Laboratory Program. The nucleus from which pupils will be selected at this level will be those pupils presently receiving classroom reading instruction in the Open Highways program or some other special program for low achievers in reading.

Note: A pupil who has been staffed and determined to be eligible for existing exceptional education programs and where, in fact, placement is available, is ineligible for participation in the reading laboratory program.

Staffing Procedures. Poor communications concerning the pupils referred and pupils selected to participate in the reading laboratory program may lead to the misunderstanding of the function of the reading laboratory program within the school. To prevent this situation, as many of the staff as are required for clear communication should be involved in the selection of the pupils for the reading laboratory program.

Initial pupil testing and screening for the reading laboratory program is the primary responsibility of the reading laboratory teacher with the assistance and advice of the school instructional staff. The reading laboratory program is the normal extension of the regular school program for pupils involved. To be productive, this program must be considered a total staff responsibility.

"Evaluation must be continuous.

Actually evaluation is the final act of continual diagnosis. It involves many of the same processes as diagnosis, i.e., an evaluation of the child's skill development and reading effectiveness. Evaluation of past performance can be considered diagnosis for future instruction; therefore, evaluation is continuous.

"Evaluation must be objective.

Objective measures of performance should be used in an effort to control bias. One often reads evaluation reports which state that the teachers and pupils were enthusiastic about the progress which had been made. Although this enthusiasm is a factor which is highly

desirable, it cannot be the basis for evaluation of program effectiveness. Non-objective evaluation techniques are certainly valuable and are not to be precluded by this principle. However, the principle that the basis of the evaluation must be as objective as possible in nature, still holds." *

Referral Procedures. Pupils must be referred to the reading laboratory program at such time when the pupils failure to progress in the classroom reading program is so severe as to require the attention of the reading laboratory teacher.

Section I of the recommended Reading Laboratory Referral Form (see page 7) should be completed for the reading laboratory teacher. The classroom reading teacher should be aware that referral to the reading laboratory program does not indicate acceptance into the program.

The reading laboratory teacher will schedule a conference with the referring teacher and other personnel as designated by the principal. Discussion during this conference will aid in determination of the most appropriate reading program for the pupil.

Pupil Priorities. The needs of each school's student population will determine the priority given to candidates for the reading laboratory program.

Diagnostic reading tests may be given to aid in determining the degree of the reading deficiencies of the candidates referred. A review of the information available (conference, test data, pupils previously enrolled, etc.) would aid in determining those pupils within a given school most in need of the reading laboratory program. The reading laboratory teacher would make recommendations concerning priorities to the principal. The final decision of the pupils to be enrolled is determined by the principal.

Scheduling. In the process of individualizing instruction in a reading laboratory program, teaching and planning is a continuous and inter-related function; therefore, planning periods as such do not meet the need of this role. A part of each period would be utilized by the reading laboratory teacher to denote the subsequent day's activities in the individual program-for-learning. Periods of time with each small group would vary. The following conditions will exist in all laboratory situations:

1. Each pupil in the reading laboratory program will be seen on a daily basis.
2. The minimum time period for any laboratory group will be one-half hour. Up to one hour of the reading teacher's day may be utilized on a one-to-one pupil-teacher ratio. (Three individuals at twenty minutes each - maximum.)

* Wilson, Robert M., Diagnostic and Remedial Reading for Classroom and Clinic. Columbus, Ohio. Merrill Publishing Company; 1967; p. 191.

3. Minimum Daily Load - 30 pupils.

Maximum Daily Load - 60 pupils.

Sixty percent of the pupils must have spent less than four years in school. Research has indicated that the longer a reading problem exists, the more difficult it is to correct that reading problem.

The reading laboratory teacher should prepare the list of reading laboratory students and a schedule of all classes. This list should be submitted to the principal for final approval and a copy distributed to the entire staff.

Long Range Planning - Elementary

APRIL

Tentative plans are established for the following school year.

Plan for the desired post tests or additional information needed on pupils.

Plan for teacher/parent conferences.

MAY-JUNE

Firm up plans for the following school year.

Schedule conferences with classroom teachers regarding the pupil's progress with advice from the teacher as to further need of remedial reading laboratory instruction.

Schedule conference with classroom reading teacher and parent of current laboratory pupils to plan summer follow-up activities (whether formal program or home reading schedule).

Evaluate, with the aid of the principal, the contributions and areas for improvement of the reading laboratory program.

Establish the priorities for materials and/or equipment purchases.

Materials and/or equipment not to be utilized during the summer should be stored during the summer months.

AUGUST

Discuss with teachers (both individually and in groups) the relationship of the reading laboratory program within the total reading program including: pupil eligibility, referral procedures, pupil priorities, etc.

Become known as a reading resource person.

SEPTEMBER

Administer diagnostic reading tests for entries to the reading laboratory.

Review work folder, former diagnostic testing of pupils continuing from previous year. Test as required.

Schedule conferences with the staff involved with each pupil.

Compile the final schedule of pupils in the Reading Laboratory Program for principal approval and disperse the final schedule to the staff.

Regular scheduled instruction under way (as early as possible in September).

OCTOBER-MARCH ON-GOING Program

Informal pupil evaluations should be made daily.

Formal pupil evaluations (not standardized testing) should be made at least once a month.

Long range plans should be reviewed monthly.

Contact with classroom teachers should be maintained weekly concerning pupils in laboratory. Communications should remain open to allow new students to enter laboratory.

The principal should be notified of pupils with severe reading disabilities who are not progressing satisfactorily. The reading laboratory teacher should consult the reading clinician to re-evaluate the program for such a child.

SECONDARY SCHOOL PUPIL PLACEMENT AND SCHEDULING

Eligibility of Pupils for the Reading Laboratory Program. Pupil placement in the reading laboratory program at this level is based upon the pupil's choice of the course offered. This was, in turn, based on: (1) phase recommendation, and (2) teacher evaluation of classroom performance in reading.

Note: A pupil who has been staffed and determined to be eligible for existing exceptional education programs and where, in fact, placement is available, is ineligible for participation in the reading laboratory program.

Referral Procedures. During the course of the school year, it may become necessary for classroom teachers to refer pupils to the reading laboratory program. These referrals should only be initiated by the classroom teacher when there is sufficient evidence that the pupil's

failure to achieve in the classroom is due to a reading problem so severe as to require the attention of the reading laboratory teacher. The referral to the reading laboratory does not indicate acceptance into the reading program.

A recommended referral form is reproduced on page 7.

Scheduling - Secondary

Pupils enrolled in the reading laboratory program will be seen daily unless enrolled in a special program in conjunction with the laboratory program.

Recommended Class Size

Phase I. It is recommended that Phase I Reading Laboratory be limited to a minimum of 8 students and a maximum of 15 students.

Phase II. Classes should be a minimum of 12 students and a maximum of 20 students.

Note: Class sizes should not exceed the maximum but may vary below the maximum to meet the needs of the individual school.

Pupil Priorities. The needs of each school's student population will determine the priority given to candidates for the reading laboratory program. The responsibility for establishing procedures used to determine priorities within the school lies with the administration.

Long Range Planning - Secondary

APRIL

Tentative plans are established for the following school year.

Plan for the desired post tests or additional information needed on pupils.

MAY-JUNE

Firm up plans for the following school year.

Evaluate, with the aid of the principal, the contributions and areas for improvement of the reading laboratory program.

Establish the priorities for materials and/or equipment purchases.

Materials and/or equipment not to be utilized during the summer should be stored during the summer months.

AUGUST

Discuss with teachers (both individually and in groups) the relationship of the reading laboratory program within the total reading

program including: pupil eligibility, referral procedures, pupil priorities, etc.

SEPTEMBER

Administer diagnostic reading tests for entries to the reading laboratory.

OCTOBER-MARCH
ON-GOING Program

Informal pupil evaluations should be made daily.

Formal pupil evaluations (not standardized testing) should be made at least once a month.

Long range plans should be reviewed monthly.

The principal should be notified of pupils with severe reading disabilities who are not progressing satisfactorily. The reading laboratory teacher should consult the reading clinician to re-evaluate the program for such a child.

READING LABORATORY PROGRAM---REFERRAL FORM

SECTION I.

PUPIL'S NAME _____ YEAR LEVEL _____ BOY _____ GIRL _____

TEACHER _____ ROOM _____ PUPIL'S AGE _____

CAUSE OF REFERRAL: _____

PRESENT INSTRUCTIONAL READING LEVEL: _____

PRESENT INSTRUCTIONAL READING MATERIALS: _____

SECTION II. (TO BE COMPLETED DURING CONFERENCE)

Is the pupil enrolled in this school for the first time this year? _____

Was the pupil previously enrolled in a reading laboratory program? _____

Has the pupil attended a summer reading program? _____ Year _____

Has the pupil been retained in any year level? _____ Year _____

Does the pupil have problems in any of the following areas:

Vision _____ Hearing _____ Speech _____ Emotional Disturbance _____

Physical Handicap _____ Other _____

Pupil's achievement in other subject areas is _____

Review of psychological testing information indicates: _____

What are some of the pupil's specific weaknesses or needs in reading? _____

How does pupil's attention span compare with the other children's? _____

Is he a behavioral problem in the class or in a small group? _____

Last Scott, Foresman Mastery or Survey Test Information: (State test and date - other standardized reading achievement or diagnostic test may be used if available.)

Note: The percentiles of the subtests should be cited. Also compare these scores against previous tests scores. Proper evaluation of these results can be most helpful.

SECTION III.

Conference conclusion:

- _____ 1. Placement of the pupil's name on the list of those eligible for the reading laboratory program. Final selection will be determined on the basis of priority.
- _____ 2. Pupil will not benefit from the reading laboratory approach. The pupil should be placed in _____ and receive re-enforcement in the following skills: _____
- _____ 3. Further testing will be done by the reading laboratory teacher and another conference held to determine the future placement of the pupil in reading.

CHAPTER FOUR

THE READING LABORATORY -- AN INDIVIDUALIZED APPROACH --

INITIAL PROCEDURES FOR INDIVIDUALIZING INSTRUCTION

A work folder will be maintained on each pupil enrolled in the reading laboratory program. It will include all diagnostic testing and other evaluative instruments as recommended for the various school levels. The work folder will also include samples of the pupil's work, ranging from the time of entry to dismissal from the reading laboratory program, a statement indicating the nature of the pupil's reading problem, and designated activities projected to alleviate the reading disability.

Elementary School Recommendations. At this level in the reading laboratory program it is recommended that the work folder of the pupil also include: (1) the Dolch Word List, (2) the St. Louis Spelling Test, and (3) the Spache Diagnostic Reading Scales.

Junior High School Recommendations. At this level in the reading laboratory program it is recommended that the work folder of each pupil also include: (1) the St. Louis Spelling Test, (2) an interest and attitude inventory, and (3) a diagnostic reading test.

Diagnostic reading tests recommended are: (1) Spache Diagnostic Reading Scales, (2) Gates-MacGinitie Survey Reading Tests, Level D or E, or (3) Scott, Foresman Intermediate or Upper Level Inventory-Survey Test. Descriptions of these tests are summarized later in this chapter.

Senior High School Recommendations. At this level in the reading laboratory program it is recommended that the work folder of the pupil also include: (1) the St. Louis Spelling Test, (2) an interest and attitude inventory, and (3) a diagnostic reading test.

Diagnostic reading tests recommended are: (1) Spache Diagnostic Reading Scales, (2) Gray Oral Reading Tests, (3) Gates-MacGinitie Reading Tests, Level D or E, or (4) California Reading Tests. Descriptions of these tests are summarized later in this chapter.

Further Diagnostic Procedures. The reading laboratory teacher may ascertain that information obtained from the completion of the requirements for the pupil folder is not sufficient to thoroughly plan the individual pupil program-for-learning. The area Reading Clinician should be consulted in regard to the selection of a diagnostic instrument most appropriate for the determination of the individual reading problem or further diagnosis of the reading problem.

Description of Tests

California Reading Tests. These group tests cover the skills of reading in the following areas: vocabulary, comprehension, following directions, reference skills, and interpretation of material in the content areas.

The tests are available in levels covering grades 7-9, or 9-14. Four forms are available at each level, total time of administration is 68 minutes, and the tests are hand scored.

Dolch Word List*. The Basic Sight Word Test devised by Dolch is a listing of 220 words, excluding nouns, which make up 50% - 75% of all ordinary reading matter. Since the words are not in context, the list is a good measure of the sight vocabulary of the pupil. Re-checks may be made as frequently as necessary to determine progress. A raw score of words correct on the Dolch Word List may indicate the following instructional levels:

<u>Dolch Words Known</u>	<u>Equivalent Reading Level</u>
0- 75	Pre-Primer
76-120	Primer
121-170	First Year
171-210	Second Year or Above
Above 210	Third Year or Above

The Dolch Word List is reproduced on page 3.

* E. W. Dolch. The Basic Sight Word Test.
Champaign, Illinois: Garrard Press, 1942.

Gates-MacGinitie Reading Test

by Arthur L. Gates and Walter H. MacGinitie

Survey D and Survey E of the Gates-MacGinitie Reading Tests are recommended. Each of these levels of the test has three sections: speed and accuracy (5 minutes), vocabulary (15 minutes), and comprehension (25 minutes). Survey D was designed for grades 4, 5, and 6; Survey E was designed for grades 7, 8, and 9. Three forms for this group test are available from Teachers College Press, Teachers College, Columbia University, 525 West 120th Street, New York, New York, 10027.

Gray Oral Reading Tests

This test measures achievement in oral reading through the use of 13 graded paragraphs of increasing difficulty ranging from pre-primer through adult reading levels. Four comprehension questions follow each selection, but are not included in the scoring since this test is not designed to measure comprehension. An analysis of 8 kinds of oral reading errors is provided by a checklist beside each paragraph.

Four forms of this individualized reading test are available from Bobbs-Merrill Company, Test Division, 4300 West 62nd Street, Indianapolis, Indiana, 46206.

Interest and Attitude Inventory

The Interest and/or Attitude Inventory enables the teacher to become more aware of the unique personality of the pupil. Reports of interest such as the one reproduced here give clues to personality patterns and sources of emotional tension. It also enables the pupil to verbalize his own interests or lack of interests. Attitudes toward reading are received through the responses to sentences 2, 13, 15, 17, 28, 32, 37, 40, and 41. Other sentences give insight into attitudes toward school and study as well as the pupil's goals for the future. An example of an interest inventory is reproduced on page 5.

Scott, Foresman Inventory-Survey Test

This test is most useful to help determine the general achievement of pupils and to determine the particular skill strengths and weaknesses of the pupils.

The test consists of five subtests: word meaning, sentence meaning, paragraph meaning, word analysis, and dictionary skills. Each subtest is arranged in order of difficulty. The test is untimed and is available in both the Intermediate or the Upper Level, with Form A or Form B. The test may be obtained from Scott, Foresman and Company, 1955 Montreal Road, Tucker, Georgia, 30084.

INTEREST AND ATTITUDE INVENTORY

INCOMPLETE SENTENCES*

Here is your chance to write exactly the way you feel. You may write anything you like but it must be what you think.

Answer all questions, do them in order, and do them rapidly.

1. Today I feel _____
2. When I have to read, I _____
3. I get angry when _____
4. To be grown up _____
5. My idea of a good time is _____
6. I wish my parents knew _____
7. School is _____
8. I can't understand why _____
9. I feel bad when _____
10. I wish teachers _____
11. I wish my mother _____
12. Going to college _____
13. To me, books _____
14. People think I _____
15. I like to read about _____
16. On weekends I _____
17. I'd rather read than _____
18. To me, homework _____
19. I hope I'll never _____
20. I wish people wouldn't _____
21. When I finish high school _____

22. I'm afraid _____
23. Comic books _____
24. When I take my report card home _____
25. I am at my best when _____
26. Most brothers and sisters _____
27. I don't know how _____
28. When I read math _____
29. I feel proud when _____
30. The future looks _____
31. I wish my father _____
32. I like to read when _____
33. I would like to be _____
34. For me, studying _____
35. I often worry about _____
36. I wish I could _____
37. Reading science _____
38. I look forward to _____
39. I wish _____
40. I'd read more if _____
41. When I read out loud _____
42. My only regret _____

Diagnostic Reading Scales
by George D. Spache

The Spache Diagnostic Reading Scales is recommended as a standardized informal reading inventory. The Scales identify reading deficiencies that interfere with adequate reading. It consists of a series of graduated scales containing three word recognition lists, twenty-two reading passages, and six supplementary phonics tests. The graded word recognition lists are used to obtain the level of performance at which a pupil should be introduced to the reading passages. The passages yield (1) oral reading instruction level, (2) silent reading independent level, and (3) potential level of auditory comprehension. The six supplementary phonics tests measure the following phonics skills: consonant sounds, vowel sounds, consonant blends, common syllables, blends, and letter sounds. The time limit varies with needs of the child. Available from California Test Bureau, Del Monte Research Park, Monterey, California, 93940.

St. Louis Spelling Test*

The St. Louis Spelling Test will give some measure of grade level achievement and also yield some diagnostic information about phonetic power in spelling.

The test consists of two lists of 32 words each selected from typical second-grade and third-grade spelling vocabularies. The words in the lists are examples of phonetic elements that commonly appear in such vocabularies. The teacher may establish the approximate grade level of achievement in spelling by using the directions and norms suggested.

The reading laboratory teacher may make further use of the tests by noting the pupil's familiarity with the phonetic and structural generalizations within the test vocabulary. A diagnostic chart of the vocabulary and the elements tested is included for this purpose.

The St. Louis Spelling Tests with an accompanying analysis of spelling errors for both Test 1 and Test 2 are reproduced on pages 8, 9, and 10.

* Kottmeyer, William. Teacher's Guide for Remedial Reading.
St. Louis: Webster Division, McGraw-Hill Book Company,
1955, p. 88-90.

ST. LOUIS PUBLIC SCHOOLS
DIAGNOSTIC SPELLING TEST

LIST 1

1. not - He is not here.
2. but - Mary is here, but Joe is not.
3. get - Get the wagon, John.
4. sit - Sit down, please.
5. man - Father is a tall man.
6. boat - We sailed our boat on the lake.
7. train - Tom has a new train.
8. time - It is time to come home.
9. like - We like ice cream.
10. found - We found our lost ball.
11. down - Do not fall down.
12. soon - Our teacher will soon be here.
13. good - He is a good boy.
14. very - We are very glad to be here.
15. happy - Jane is a happy girl.
16. kept - We kept our shoes dry.
17. come - Come to our party.
18. what - What is your name?
19. those - Those are our toys.
20. show - Show us the way.
21. much - I feel much better.
22. sing - We will sing a new song.
23. will - Who will help us?
24. doll - Make a dress for the doll.
25. after - We play after school.
26. sister - My sister is older than I.
27. toy - I have a new toy train.
28. say - Say your name clearly.
29. little - Tom is a little boy.
30. one - I have only one book.
31. would - Would you come with us.
32. pretty - She is a pretty girl.

LIST 2

1. flower - A rose is a flower.
2. mouth - Open your mouth.
3. shoot - Joe wants to shoot his gun.
4. while - We sang while we marched.
5. stood - We stood under the roof.
6. third - We are in the third grade.
7. each - Each child has a pencil.
8. class - Our class is reading.
9. jump - We like to jump rope.
10. jumps - Mary jumps rope.
11. jumped - We jumped rope yesterday.
12. jumping - The girls are jumping rope now.
13. hit - Hit the ball hard.
14. hitting - John is hitting the ball.
15. bite - Our dog does not bite.
16. biting - The dog is biting on the bone.
17. study - Study your lesson.
18. studies - He studies each day.
19. dark - The sky is dark and cloudy.
20. darker - This color is darker than that one.
21. darkest - This color is the darkest of the three.
22. afternoon - We may play this afternoon.
23. grandmother - Our grandmother will visit us.
24. can't - We can't go with you.
25. doesn't - Mary doesn't like to play.
26. night - We read to mother last night.
27. brought - Joe brought his lunch to school.
28. apple - An apple fell from the tree.
29. again - We must come back again.
30. laugh - Do not laugh at other children.
31. because - We cannot play because of the rain.
32. through - We ran through the yard.

Directions: Give List 1 to any pupil whose placement is second or third grade.
 Give List 2 to any pupil whose placement is above grade 3.

Grade scoring, List 1: Below 15 - below second grade
 15 - 22 - second grade
 23 - 29 - third grade

Any pupil who scores above 29 should be given the List 2 test.

Grade scoring, List 2: Below 9 - below third grade
 9 - 19 - third grade
 20 - 25 - fourth grade
 26 - 29 - fifth grade
 over 29 - sixth grade or better

Any pupil who scores below 9 should be given the List 1 test.

14. hitting		30. laugh	non-phonetic spelling
15. bite	dropping final e before ing	31. because	
16. biting		32. through	

Designing Individual Pupil Programs-for-Learning

The reading laboratory approach is based upon the individualization of instruction. Planning for this type of instruction will, due to this consideration, be of a different type than classroom planning.

Planning should be done in two stages: (1) a master plan (the planning record for the reading laboratory teacher for that group scheduled during the same bloc of time), and (2) individual programs-for-learning.

Master Plan. The master (or teacher) plan is used for one group, for one week; however, this time period may be adjusted to fit the needs of the individual teacher. The plan provides space for the major items utilized by the reading laboratory teacher. The master plan is a compilation of activities designed to obtain previously established short and long range objectives for the pupil involved in the reading laboratory program. Examples of master plans are reproduced on pages 12, 13, and 14.

Individual Pupil Program-for-Learning

The designing of the pupils' individual program-for-learning should provide instruction in, and the utilization of, those materials that would alleviate the pupils' deficiencies in reading. The reading laboratory teacher should utilize those materials, methods, items of equipment and accompanying materials, that provide the instruction deemed necessary by the nature of the pupils' reading difficulties.

The designing of the individual pupil program-for-learning should be completed or reviewed in detail during the pupil-teacher conference in order to establish the individualized approach with the pupil and familiarize the pupil with the materials with which he will be working.

Steps in the designing of the individual program-for-learning are:

1. Based on the teacher's knowledge of the pupils' individual reading difficulties, instructional reading activities are assigned.
2. Notation is made on the teacher master plan and on the individual program-for-learning and assignment of a regular conference time is scheduled.

It is suggested that the teacher keep a copy of the individual programs-for-learning. This copy provides a ready reference to all the activities of all the pupils in the reading laboratory program and establishes a permanent record of pupil activities and placement of materials. A permanent reading laboratory folder may be kept by the teacher. Individual programs-for-learning are reproduced on pages 15, 16, and 17.

MASTER PLAN - A

Individual Student Weekly Reading Lab Program

NAME: Dave G.

GRADE: 8 PERIOD: 2

MONDAY	Mrs. Jones class: Open Highways, Book 6, Pages 61-62 Chocolate Fudge - Discussion of experiences children have had in cooking something (use of recipes) need to preview certain types of written material Identify utensils needed, also ingredients Reread recipe to note sequence Need to read recipe once more if they are going to actually prepare fudge. Think and Do Book, Page 32.
TUESDAY	Mrs. Jones class: Open Highways, Book 6, Pages 63-69 How many made some fudge from yesterday's recipe? Adventures of Thomas O'Toole: Introduction and Vocabulary Read; and discuss literal meanings. O'Toole's fanciful tales - main ideas, context clues Prefixes; un, dis, and im
WEDNESDAY	9:10-9:50 S.R.A. Reading Lab (Blue) Reading selection and Learn about Words - Go over answers with Dave and discuss any elements of phonetic or structural analysis he is not sure of - check inferential comprehension S.R.A. Rate Builder - Have Dave time himself in this selection - check answers with him. 9:50-10:00 Tach-X (Ask Dave to help Terry get machine set up with correct film (D, #3, 2nd lesson)
THURSDAY	9:10-9:50 Language Master; Review of both long and short vowels (What are some ways we can recognize which sound we will have in unknown words; cvcv and cvcc) Reading for Understanding: Cards #30 (Careful reading) Check answers with Dave and discuss any he misses. 9:45-10:00 Review spelling patterns (vc/cv, and v/cv) Discuss how these can give clues to pronunciation Have some of both single and multi-syllable words on board for students to analyze.
FRIDAY	Games and/or Pleasure Reading Probe (Be sure that children know definitions of any words they use) Encourage building "longer" words for more points (how prefixes and suffixes can add to length of words and influence meanings and usage)

SHOW DAVE WEST POINT CATALOG

Evaluation of Pupil Programs

Reporting Pupil Progress

Reports of pupil progress should be made to: (1) the pupil, (2) the parents, and (3) and principal and instructional staff.

To the Pupil.

The pupil in the reading laboratory program should receive continuous information regarding his progress from the reading laboratory teacher through a weekly conference scheduled during the reading laboratory period.

The area reading clinician's assistance in this type of informal pupil program evaluation should be utilized during the school year. Such assistance may serve to benefit the reading laboratory teacher in the development of subsequent program designs.

To the Parent.

The parents of the pupils enrolled in the reading laboratory program should be informed of their child's participation in the program. Reporting of information in regard to pupil progress in the reading laboratory program should be made to the parent at the scheduled report time and also at any point when the information is requested or significant.

To the Principal and Instructional Staff.

The reading laboratory teacher should utilize the post-test evaluative information to establish pupil progress and determine the recommendation for placement for the pupil for the following school year.

A summary of the results of the reading laboratory program should be given to the principal and to those members of the instructional staff involved with the pupils enrolled in the reading laboratory program.

Recording Pupil Progress

The pupil's individual program maintained in the work folder may be used to provide the information necessary to record and report progress. The work folder provides a record of pupil progress and the materials used during the reading laboratory program.

At the completion of a child's study in the reading laboratory, the reading laboratory teacher should complete the Pupil Progress Record for placement in the cumulative folder.

FOREWORD

The listings of materials and equipment provided in this chapter were designed to be utilized for the organization and planning of the reading laboratory. The purposes of the listings are varied, for each provides information unique to the other, but pertinent to a definite service for the reading laboratory teacher and/or the administrator.

The following listings are provided for the purpose of locating information concerning each item of material or equipment: (1) a list of publishers, representatives, items included and vendor reference code numbers, (2) description of individual items of materials and equipment, (3) a list of programming information on individual items (stating: (a) skill area, (b) interest level, and instructional level of each item), and (4) a complete index of every item included.

The following listings are provided for the dual purpose of: (A) instructional evaluation of the reading laboratory in individual schools, and (B) determination of selections of additional materials and equipment for the reading laboratory. The listings are: (1) Recommended and Approved materials and equipment list for elementary and secondary schools, and (2) Option Reading Laboratories for elementary, junior high, and senior high schools.

The following persons have made significant contributions to the listings of reading laboratory materials and equipment:

Elementary:

Audubon:	Sara Surrett
Golfview:	Susie Fleming
Harbor City:	Patricia Williams
Imperial Estates:	Nancy Elmore
Mila:	Rhoda Kilbourn
Oak Park:	Elizabeth Ryoland
Old Dixie:	Ruth Sanders
Palm Bay:	Mary Penn
Patrick:	Elaine Phares
Pineda:	Evelyn Wilee
Stevenson:	Maxine Carr

Secondary:

Jackson Junior High:	Sylvia Baxley
Clearlake Junior High:	Gail Smith
Kennedy Junior High:	Virginia Schrauger
Hoover Junior High:	Caroline Loftin
Roosevelt Junior High:	Lynn Gelineau

PRESENTATION OF OPTION READING LABORATORIES

The Option Reading Laboratories are designed for: (1) instructional evaluation of the reading laboratory materials and equipment, and (2) to aid in determining additional materials needed within the individual school to provide a balanced program according to the needs of the school.

There are three options at each school level: Elementary, junior high, and senior high. Each succeeding option (I,II,III) provides more depth within a skills area and additional approaches to specific reading problems. EACH OPTION READING LABORATORY ENCOMPASSES ALL MATERIALS INCLUDED IN THE PREVIOUS OPTION(S).

The administrator, with the involvement of key personnel, should select the Option Reading Laboratory which would be most suited to his school's needs. The following summary statements (of the Option Reading Laboratories) should aid in determining the most appropriate Option Reading Laboratory for the school.

Option I. Option I Reading Laboratory materials and equipment provide basic instructional coverage in terms of instructional levels, interest levels, and basic reading skills. An Option I Reading Laboratory is designed to be the foundation for a new reading laboratory and the minimum goal of each school.

Option II. Option II Reading Laboratory provides the essentials (offered in Option I) plus increased depth of instructional materials. Option II should provide an adequate basis for instruction for schools with a student population from a high socio-economic background. The absolute numbers of readers classified as moderate to severely disabled should be less than might be expected in an "average" school.

Option III. Option III Reading Laboratory provides additional depth and variety of materials, allowing extensive and long-term treatment of specific reading disabilities. This Option would be necessary for schools with larger percentages of severely disabled readers.

The intent of the Option Reading Laboratory concept is to provide a means of evaluating the skill areas which are supported by instructional materials. Additional materials should be selected for a laboratory by building up weak skill areas. The option charts would, therefore, be used as a tool for building horizontally I - II, etc. within an area which the staff feels is in need of additional depth.

* Each item (in the Option section) with an asterick (*) also appears in the skills section under the same skill heading.

Description: Two or three suggested per lab. Comes with teacher's guide and carrying case.

CONQUESTS IN READING

Skills Covered: Word Analysis - Vocabulary - Spelling

Vendor Code: 32

Interest Levels: Elementary, Junior High, Senior High

Consumable

Instructional Levels: 2 - 6

Approximate Price: \$1.30

Description: Comprehensive single workbook remedial program in phonetic and structural word analysis skills and spelling. Exercises begin with consonant sound-symbol relationships and proceed through affixes. Exercises also include vocabulary development through reading in context and development of a limited sight vocabulary. Student text is 145 pages, 8 x 11", illustrated. Manual available. Although suggested by publisher for use in the middle grades through junior high, format would be acceptable at senior high level.

CONTROLLED READER FILMSTRIPS

CR-MT:	Motility Training	CR-E	(one album)
CR-AD:	Accelerated Discrimination	CR-EE	(one album)
CR-A	(two albums)	CR-F	(one album)
CR-B	(two albums)	CR-FF	(one album)
CR-C	(two albums)	CR-GH	(one album)
CR-D	(one album)	CR-IJ	(one album)
CR-DD	(one album)	CR-JI	(one album)

Skills Covered: Comprehension - Rate - Visual Discrimination Vendor Code: 47

Interest Levels: Non-Consumable

Instructional Levels: K-10

Approximate Price: CR-MT - \$52.50 CR-A through CR-IJ - \$87.50 each
CR-AD - 32.00 CR-JI - 85.50

Description: Sets of graded story selection which contain both fact and fiction. The stories have a high interest level at low reading levels. The vocabulary is cumulative, therefore it is recommended that the student progress through the album in a sequential manner.

CONTROLLED READER (LARGE)

Vendor Code: 47

Non-Consumable

Approximate Price: \$275.00

Description: One suggested per lab. Comes with teacher's guide and carrying case.

During Controlled Reader training, a moving slot travels across the screen from left to right, covering and uncovering reading material as it goes. All eyes are on the screen, so, with no chance to look back, the students must be "on their toes" visually and mentally. The moving slot makes possible improvements in visual mobility and coordination. Directional attack improves as the reader develops an economy of fixations, makes fewer regressions, thus broadening his span of recognition. Comprehension improves as the reader becomes more comfortable visually and more proficient perceptually. Group training is provided with the EDL Controlled Reader; individual or team practice is carried out with the Controlled Reader, Jr.

CRAIG READERS

Skills Covered: General

Vendor Code: 13

Interest Levels: K-12

Non-Consumable

Instructional Levels: K-12

Approximate Price: \$229.95

Description: The Craig Reader is designed to help each student improve reading comprehension and increase reading efficiency at his own individual rate.

Description: Reading Attainment is a self-directed individualized program containing 120 color-keyed grades selections. These contemporary selections include comprehension question with matching skill cards used for developing vocabulary and reading skills. Manual and student record books are included with the kit.

READING FOR CONCEPTS, A-H

Skills Covered: Comprehension, Vocabulary

Vendor Code: 32

Interest Levels: Junior High, Senior High

Non-Consumable

Instructional Levels: 2-9

Approximate Price: A-E - \$1.65 for soft \$3.00 for hard
F-H - 2.10 for soft 3.15 for hard
Teacher's guide - \$.60

Description: Set of eight books available in either soft or hard covers. Factual reading material pertinent to the learning areas of the total curriculum, critical reading, particularly drawing conclusions and making inferences.

READING DEVELOPMENT KITS

Kit A
Kit B
Kit C

Skills Covered: Comprehension

Vendor Code: 1

Interest Levels: Junior High, Senior High

Non-Consumable

Instructional Levels: 1-10

Approximate Price: \$56.00 per kit, manual \$1.00

Description: These editions are "specifically intended for adults in adult education and for younger students in need of literary training". On the basis of either the Informal Reading Development Inventory, or a standardized test, students are placed in the appropriate kit. Five lessons in critical reading at the beginning of each kit must be done before beginning the rest of the lessons in the kit. Then using a Reading Development Progress Record, the student can begin a lesson. The student's record book also includes keys to check answers.

READING FOR MEANING SERIES

Reading for Meaning, 4-12

Skills Covered: Comprehension, Study Skills

Vendor Code: 29

Interest Levels: Junior High, Senior High

Consumable

Instructional Levels: 4-12

Approximate Price: \$.90, Teacher's Guide 4-6 - \$.60,
Teacher's Manual 7-9 - .60

Description: A series of nine workbooks with directing emphasis toward development of comprehension, and study skills. Suitable for individual or group instruction.

READING FOR UNDERSTANDING SERIES

Reading for Understanding Laboratory, Junior Edition
Reading for Understanding Laboratory, General Edition
Reading for Understanding Laboratory, Senior Edition

Skills Covered: Critical Comprehension

Vendor Code: 43

Interest Levels: Elementary, Junior High, Senior High

Non-Consumable

Instructional Levels: 3 - 12

Approximate Price: \$56.00

Description: These developmental reading kits are useful in grades three through twelve for developing critical comprehension. The paragraphs are graded in difficulty and cover comprehension, reasoning, inference, interpretation, and meaning. Each kit contains 400 lesson cards, one placement test, a student record book, and forty answer booklets and a teacher's handbook.

ROYAL ROAD MINIATURE READERS

Pip the Pet Rabbit
Jill's Best Frock

Approximate Price: Pre-Primer and Primer Levels - \$.48 each
1st Reader - .54 each
2₁, 2₂, 3₁, 3₂, - .60 each

Description: Softbacks to accompany each level of the basic reading program to give pupils enjoyable reading experiences beyond their daily lessons.

SCHOOL SKILL TRACING BOARD

Skills Covered:

Vendor Code: 40

Interest Levels:

Non-Consumable

Instructional Levels: K, 1, 2

Approximate Price: \$27.75

Description: The Tracing Board was designed for children who demonstrated the perceptual readiness for primitive drawing, but had not yet developed the eye-hand skills equal to their visual form-shape discrimination abilities. It is appropriate for children in special classrooms whose cultural and academic development has been delayed. The Tracing Board is useful for any child whose handwriting is so scribbled or forced that writing is a deterrent, rather than a reinforcement to learning. The slanted board is covered with a special fiberglass material so that the children can use special rub-off crayons to trace their patterns. There are 29 patterns or symbols in developmental sequence.

SHAPES AROUND US SERIES

What Is Round?
What Has Three Sides?
What Has Four Sides

What Comes In A Can?
What Comes In A Box?
What Shape Is It?

Skills Covered: Perception

Vendor Code: 9

Interest Levels: Elementary

Non-Consumable

Instructional Levels: P-1

Approximate Price: \$1.80 each

Description: This hardback series was designed for use of pupils in primary (or low intermediate) grades. Basically, children are made aware of shapes and sizes. Stories are arranged in alphabetical order and the same characters are present throughout the series.

SIGHT AND SOUND OF PHONICS

Skills Covered: Word Recognition

Vendor Code: 16

Interest Levels: Elementary, Junior High

Non-Consumable

Instructional Levels: 1-6

Approximate Price: \$84.50

Description: A colorful transparency program from which students can establish a basic foundation in word attack skills. Makes use of the kinesthetic, auditory, and visual approaches. The program is divided into four sound study areas: Consonants, Consonant Blends, Digraph, and Vowels. Complete program, including 40 transparencies with carrying and storage case.

SINGER STRUCTURAL SERIES

Pupil Books
Key-Picture Cards
Sound-Picture Cards

Reading Dominoes
Vocabulary Development Booklets
Teacher's Edition

Skills Covered: General

Vendor Code: 45

Interest Levels: Primary

Non-Consumable

Instructional Levels: K-3

Approximate Price:

Pupil Books:	- \$1.08 - \$1.59
Key-Picture Cards	- 3.36
Sound-Picture Cards	- 4.62
Reading Dominoes	- 2.91
Vocabulary Development Booklets	- 2.01

Description: A series of colorful text-workbooks and materials systematically sequenced to teach basic reading skills. Key-Picture Cards provide aid in initial consonant and short vowel sounds. Sound-Picture Cards are designed to extend oral vocabulary and develop auditory discrimination of initial sounds. The Dominoes are for analyzing words. The Vocabulary Development Booklets provide opportunities for using many skills.

SPELLING WORD POWER LABORATORIES

Laboratory IIa
Laboratory IIb
Laboratory IIc
Laboratory IIIa

Skills Covered: Spelling - Phonics

Vendor Code: 43

Interest Levels: Junior High, Senior High

Non-Consumable

Instructional Levels: 4 - 7

Approximate Price: \$69.95

Description: The Spelling Word Power Laboratory consists of comprehensive sets of learning materials that incorporate modern techniques of multi-level instruction. The multi-level format provides individualized programming for the spelling skills.

STORIES FOR FIRST PHONICS

Skills Covered: Independent

Vendor Code: 18

Interest Levels: Elementary

Non-Consumable

Instructional Levels: 1, 2, 3

Approximate Price: \$1.25

Description: A paperbound book (109 pages) with line drawn illustrations. The text utilized only short vowels and sight words.

SRA READING LABORATORIES

Laboratory IIIa
Laboratory IIIb

Skills Covered: General Vocabulary, Comprehension, Rate

Vendor Code: 43

Interest Levels: Junior High, Senior High

Non-Consumable

Instructional Levels: 3-12

Approximate Price: \$65.00 each

Description: Series of graded skill development materials. Labs IIIa and IIIb include note-taking skills.

STOP WATCH OR TIMER

Interval Test Timer

Bid-Item

Approximate Price: \$11.50

Non-Consumable

STORIES FOR TEEN-AGERS

Book A - Red
Book B - Blue
Book 1 - Yellow
Book 2 - Green

Skills Covered: Comprehension

Vendor Code: 22

Interest Levels: Junior High, Senior High

Non-Consumable

Instructional Levels: 4-5

Approximate Price: \$2.40 each

Description: Anthologies in which selections have been chosen for adolescent appeal. Books A and B include discussion and multiple choice comprehension questions for each selection. Books 1 and 2 include discussion questions for each unit, with a final review quiz which includes punctuation, vocabulary and main idea questions.

STUDY SCOPES READING PROGRAM

Skills Covered: Phonetic Analysis, Structural Analysis

Vendor Code: 46

Interest Levels: Elementary

Non-Consumable

Instructional Levels: K-4

Approximate Price: \$94.50

Description: A complete set of materials including 15 Study Scopes, 6 levels of printed programs (consonants, blends, vowels, word structure, meaning and syllabication), 6 individual study scribes, 30 pupil progress charts, 30 teacher reports and one teacher manual. Complete classroom lab in metal cabinet. It provides opportunities for children to learn on an independent, individualized basis.

Approximate Price: \$3.00

Description: Plastic voice reflector. The student wears this device which aids in building auditory discrimination skills and improves skill in oral reading.

TRY EXPERIENCE FOR YOUNG CHILDREN

TRY Experience for Young Children

Skills Covered: Perception

Vendor Code: 37

Interest Levels: Elementary

Consumable

Instructional Levels: K-1

Approximate Price: Kit \$20.00

Description: The manipulative materials of the Regular Kit can be used through the year. However, the Activity books when used properly are consumed and one is required per child.

Each stage of TRY included a set of manipulative materials and an Activity Book. Each page of the Activity Book introduces a Visual-Perceptual Experience on the front side and a Related-Expressive Experience on the reverse side.

Task 1 consists of four geometric shapes of three different sizes. The experiences are discrimination shapes, sizes, rotations, left to right and top to bottom orientation.

Task 2 consists of twenty identical red and white blocks, each having four different designs and two solid colors. The experiences are matching sides of blocks to designs illustrated on pages of the Activity Book.

Task 3 consists of white plastic tiles with the upper and lower case of the alphabet, tiles imprinted with punctuation and blank tiles. The letters are printed in black and raised slightly. The experiences are matching tiles to letter forms.

Task 1	Activity Book	\$1.00
	Teacher Guide	.92
Task 2	Activity Book	.92
	Teacher Guide	.92
Task 3	Activity Book	1.00
	Teacher Guide	1.00

THE READING LABORATORY
A Selected Bibliography

Chapter Six is designed to aid in the development of a professional reading library within each school. The suggested selections are intended as "core materials" only and should not be construed as inclusive of all desired professional reading materials. These materials should provide a sound basis for professional growth in the teaching of reading and in the diagnosis and remediation of reading problems.

Professional Materials for the School Library

Professional literature for the school library is designed for all teachers involved with the pupil and reading instruction. Literature is listed separately for the elementary and secondary personnel. Broad subcategories have been designated to facilitate the selection of literature. The selection and balance of literature for the school library should be dependent upon the needs of the individual school.

ELEMENTARY

General and Reference:

Chall, Jeanne. Learning to Read: The Great Debate.
McGraw-Hill: New York.

Durr, William K. Reading Instruction: Dimensions and Issues. Houghton Mifflin Company: Boston, 1967.

Selected Bibliography

McKee, Paul. Reading: A Program of Instruction in the Elementary School. Houghton Mifflin Company: Boston, 1966.

Spache, George. Reading In the Elementary School. Allyn and Bacon: Boston, 1968.

Strang, Ruth (et.al.). The Improvement of Reading. McGraw-Hill Book Company: New York, 1967.

Principles of Teaching Reading:

Barbe, Walter B. Educator's Guide to Personalized Reading Instruction. Prentice-Hall, Inc.: Englewood Cliffs, New Jersey, 1961.
